

Community Meeting

Let's Revitalize Anchorage!

The Municipality of Anchorage is working with Eklutna Inc., the Anchorage Community Development Authority and Stantec Consulting to apply for an EPA Coalition Assessment Grant. This grant could be used to assess potential contamination, identify and address drinking water safety, or plan for redevelopment and reinvestment in our communities.

Join us for a presentation about our goals for the program, help us identify issues and sites, and share your ideas about how to revitalize neighborhoods across the city!

All Anchorage residents, business owners, property owners, and community organization members are welcome!

**Monday January 7th
5:30 PM - 7:00 PM**

**Anchorage Permit and Development Center
Training Room
4700 Elmore Road, Anchorage, AK**
