

# Geneva Woods Storm Drainage: Virtual Public Meeting #1 & Questionnaire

## Virtual Public Meeting #1

Join the Municipality of Anchorage Project Management & Engineering (MOA PM&E) at the first public meeting to learn about the Geneva Woods South Storm Drainage project.

### Virtual Public Meeting #1

Wednesday, March 16, 2022

5-6:30pm

[Microsoft Teams Link](#)

Or call-in: (833) 452-0188

Conference ID: 272 671 694#

If you can't make it, the meeting materials will be posted on the project website after the meeting.

[Visit the project website.](#)

## Get Involved

- [Complete the project questionnaire online](#) or by completing and returning the paper questionnaire, which was mailed to residents/owners along the storm drainage project area in February 2022.
- Contact us with questions or comments by emailing Public Involvement Lead Holly Spoth-Torres at [holly@huddleak.com](mailto:holly@huddleak.com).

## Project Overview

The Municipality of Anchorage (MOA) Project Management and Engineering Department (PM&E) is investigating a project to replace the existing deteriorated storm drain south of St. Gotthard Ave and east of the New Seward Highway. Improvements may include new storm drain pipe and manhole support.

PM&E's engineering design consultant, PTS Inc., is working on a Design Study Report (DSR) to analyze design alternatives. Findings will be presented to residents, stakeholders and property owners and feedback will be solicited as part of the Public Involvement Plan. No funding for final design or construction has been received at this time.

## Project Area
